

**Pos. 02-40**

**VACUUM EXTRUDER, stainless steel, 250 mm**

**Used-overhauled**

**Manufacturer**

**EU**

**Type**

**NVPP 250**

**Model**

**Stainless steel**

**Year of construction**

**1987**

**Condition**

**used, new bearing, overhauled and sealed**

**Cooled press Cylinder**

**Cylinder diameter 250 mm**

**Max. strand diameter for standard press head 150 mm**

**Special press head 250 mm**

**Vacuum 80 ... 30 mbar**

**Throughput 4-5 t/h**

**Installed electrical power 53 kW**

**From that**

**Feeder drive 18,0 kW**

**Press drive 30,0 kW**

**Cutting knife 4 kW**

**Operating voltage 380V**

**Electrical connection 3/n - 50 Hz**

**Control cabinet / electronic components designed according to EN 60204 (VDE 0113)**

**Weight approx. 3 t**

**Further changes on request against surcharge possible**
